# TWINES for BIG SQUARE BALES

The Grand Harvest Premium Range of Heavy Twines is the rational choice for big baling presses: reliable and with a quality born from years of expertise and field testing.

## HD Twines

Amjay is the reference in the market for High-Density Twines. Now and Always!

### Advantages:

- High Bale Density
- Improved resistance
- Reduced Wear on baler parts
- Perfect knots and knot alignment
- Excellent Performance

Available upon request.

## UNITECH Technology

- UNique technology – thinner twine with equal resistance
- Less plastic on the field
- Better for the environment

# TWINES for SMALL SQUARE BALES

The softest twines for Small Square Bales, making it ideal for hay baling.

- Other sizes available:
- Maximum 9000-180
  - Grand Harvest 9000-150

# TWINES for BIG ROUND BALES

Always reliable with a top performance.

# SISAL AND BINDER TWINES

Sisal baler twine, as a natural fiber, can play a very important role in **environmental protection** acting as a **substitute for other synthetic products**. The fiber naturally biodegrades into the soil and thus does not require removal from the field by the farmer.

### Advantages:

- Uniform twine thickness
- Knot and amendment free
- Guaranteed minimum tensile strength
- Treated to resist rotting, mold, insects and rodents

# SILAGE FILM

The process of fermentation only runs properly under rejection of air.

And we have the best product for you!

Less air, better silage!

### Advantages:

- Great puncture resistance
- Bale size improvement and shape consistency
- High performance silage film that delivers high feed value efficiently and profitably
- Trouble-free wrapping
- 12-month UV guarantee
- Available in White. On request: color Green
- Available in 20' and 30' mono layer and/or five layers.
- Available in 1.0 mil. On request: in 1.2 mil or 1.5 mil

# CROSS-NET LPLUS NET WRAP

Reliability, Endurance, Performance...

That's CROSS-NET: **Eventually, the best net wrap in the world!**

Ideal for more demanding applications.

## Advantages:

- Cotesi patented **cross weft technology**;
- If a warp or weft are cut, the net wrap will still withhold the bale;
- Withstands more pressure;
- Extra crop protection

## Applications:

- Silage
- Hay
- Straw
- Corn Stalk

## Available in:

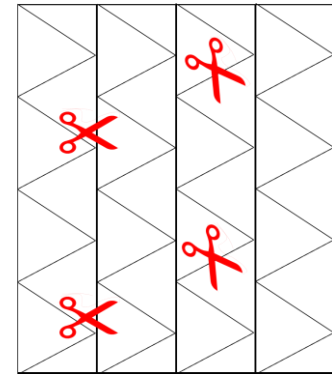

- 48" x 9 840'
- 51" x 9 840'
- 64" x 9 840'

### Cross X-Pand Construction

Does not open the net.

### Standard Construction
